

TRANSFORMING THE FUTURE OF MOTOR FUEL SUPPLY CHAIN RESILIENCE

AN INNOVATIVE & INDEPENDENT DIGITAL
MOTOR FUEL MARKETPLACE

EMERGENCY USE DISCUSSION

GASOLOGY – WE DAT

LOCAL EXPERTS CHANGING THE FUTURE OF MOTOR FUEL

HOME COURT ADVANTAGE

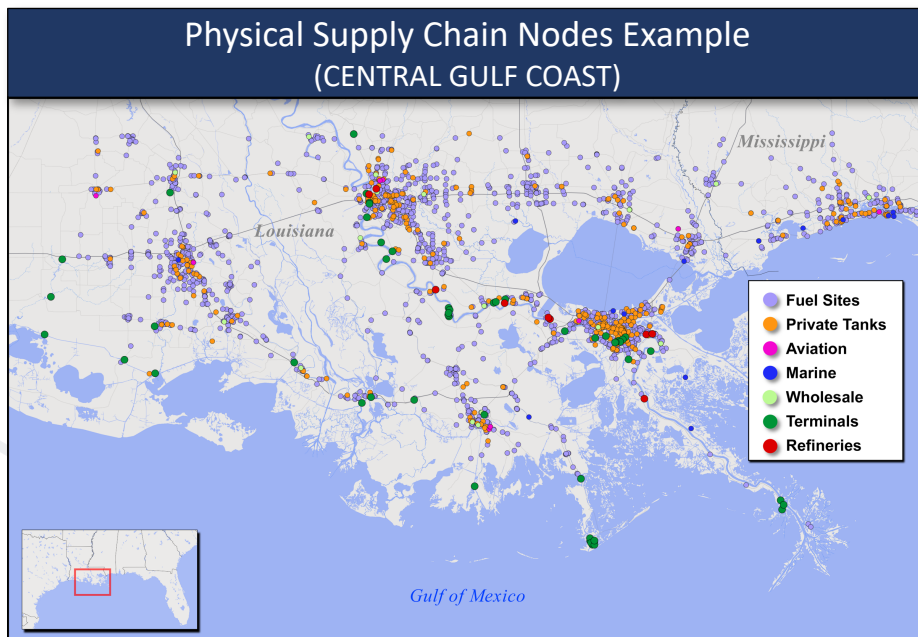

Headquartered in New Orleans, we wanted to ensure that our local businesses and agencies had a personalized introduction to the powerful Gasology technology created by local energy and technology experts with deep roots in Louisiana.

MORE CHOICES = GOODBYE TO FUEL OUTAGES.

We NEVER want to experience fuel outages again and want our local businesses to have MORE choices on where to find access to fuel supplies, delivery alternatives and the transparency of prices never seen before.

RESILIENCY = REAL-TIME ENTIRE SUPPLY CHAIN CONNECTIVITY

Gasology is ONLINE MOTOR FUEL and was built to connect the entire motor fuel supply chain on one seamless marketplace platform. Built to provide buyers with more choice & control, Gasology also can be very instrumental in facilitating RESILIENCY to understand where fuel inventories exist, and fuel outages and demand changes have occurred...all in real-time. We want to help.

EMERGENCY POWER TOOLS

TOOLS FOR SOLVING MOTOR FUEL SUPPLY DISRUPTIONS

EMERGENCY USE POWER TOOLS OF MOTOR FUEL

Gasology is the fastest-growing, independent motor fuel marketplace and has been onboarding the bulk motor fuel players (refineries, wholesalers, distributors, gas stations, truck stops and fleets) on the platform at a national level.

During the 2022 emergency events, participants on our platform had more knowledge about fuel inventories than those NOT on our platform. We are offering our platform & information to help. 100% free.

DELIVERING TRANSPARENCY OF SUPPLY, DEMAND & PRICING

Imagine the technology that delivers the availability of motor fuel supply locations and demand locations at every tier in order to identify the most effective way to re-establish a pre-disaster motor fuel supply chain. Gasology's innovative tools and interconnectivity create resilience within the motor fuel supply chain allowing for rapid restoration in the event of any catastrophic incident.

FREE!

100% Free for all buyers, regulators, agencies. Sellers only pay Gasology a small transaction fee if fuel is sold for months/years forward into the future. No subscriptions or fees to register. 100% cloud-based, secure and no equipment required.

EXTENSIVE BENEFITS

Buyers: Real-time discovery of fuel availability, choices & transparency.

Sellers: Expands access to customers (new & existing) to provide real-time availability, price discovery, and transparency 100% online.

Regulators/community: Real-time motor fuel supply availability and pricing. Real-time buyer demand, orders and requirements. Ability to coordinate distribution logistics, remove bottlenecks and expand resources to reduce shortages and demand challenges.

The top screenshot shows the 'Fuel Merchant Portal' for 'XYZ Distributor Inc.' with a 'TR014 Facility Dashboard'. It includes a 'Contingent Supplier Monitor' table with columns for Product, Supplier, Facility, Product, Supplier, My Facility, and Quantity. A 'Customer Monitor' table shows details for various customers. A 'Base Price Monitor' is also visible at the bottom.

The middle screenshot shows the 'Business Consumers' portal for 'ABC Trucking Co.' with a 'Find Fuel' section. It features a map of Louisiana and a table of fuel prices for different products and quantities.

The screenshot shows the 'Carriers' mobile app interface. It displays 'Truck 00312' with a 'JOB IN PROGRESS' status and an estimated time to destination of 00:20:00. The cargo is 'Diesel' (7500 gal). It includes a map showing the route to '1234 Buyer St. New Orleans, LA' and 'Delivery Instructions' to pull up to and drop at terminal 4A.

Carriers

The screenshot shows the 'Drivers' mobile app interface. It features a map of New Orleans with a 'Fuel' button and a table of fuel prices for different products and quantities.

Drivers

The screenshot shows the 'EV Drivers' mobile app interface. It displays a 'GO QuickCharge' station with a '36kw' charging power and a '45%' battery level. It includes a 'STOP' button and a 'Charging' progress indicator.
